

QMainWindow

```
graph BT; A[src.mainWindow.mainWindow] --> B[QMainWindow];
```

A UML diagram showing an association between two classes. The top class is named 'QMainWindow' and is represented by a white rectangle with a black border. The bottom class is named 'src.mainWindow.mainWindow' and is represented by a gray rectangle with a black border. A blue arrow points from the bottom class to the top class, indicating a directed association.

src.mainWindow.mainWindow
